Mike:

I just with staff and we are compiling the data. I hope to have something for you this afternoon.

Thanks,

Rob

Subject: UIC Follow-up Qs

Hi Steve/Rob,

We are doing some additional prep for a Press call scheduled for Friday morning. Thanks for getting back to me yesterday on my initial questions. If you could please get us the following information for the 532 permitted injection wells into non HC zones preferably by the end of the day:

What % are into sub 3000 TDS?

What % are 3000-10000 TDS?

What % have no TDS data in your records?

What is the depth range for these wells and what is average depth?

What is the sum volume injected by these wells? How many have injected?

I will be in Sacramento this afternoon but if one of you could call me (415-971-9030 cell) and update me on the status of the information on these well locations being provided to the water board as outlined in our letter attachment?

Thank you,

Mike

Michael Montgomery
